ABOUT THIS GUIDE

A short, honest brief: how the Wyrhta mark is drawn, how the type is set, where the ember falls, and how the §-numbered sections hold together — for the press kit, the journal, and anyone else who needs to set our work next to their own.

AUDIENCE

Writers, podcasters, conferences, and contributors. Designers extending the system inside Heorth, KithLedger, or Feoh. Anyone setting our marks next to theirs.

LICENCE

Text of this document is published CC BY-SA 4.0. Wyrhta marks are reserved; please do not modify, recolour, or place them on busy imagery. If in doubt, write press@wyrhta.dev — we are friendly.

§ 01

Brand foundation.

What Wyrhta Labs is, what it isn't, and the principles that hold the work together at a deliberate pace.

WHAT IT IS

Wyrhta Labs is a private, personal open-source initiative founded in 2026 in Castrop-Rauxel, devoted to one clear goal: an organisation core for family and home life — software for the kitchen wall, the family calendar, and the slow correspondence between people who care for one another.

The work is done in the open by default: code on GitHub under the permissive MIT license, a public handbook, a journal posted when the work warrants, and a roadmap discussed openly before it is built.

THREE PROJECTS

Heorth*Homestead & family*

Meal plans, chores, calendars, pantry, garden, and a shared family journal — for the wall-mounted screen, the kitchen phone, and the laptop after the children are asleep.

0.1 BETA · Q3 2026

KithLedger*Relationships, API-first*

A small, self-hostable ledger for the people you care about: birthdays, last touchpoints, the shape of a friendship over years. Used inside Heorth and consumed by third-party clients.

0.1 BETA · Q3 2026

Feoh*Household finance · module*

Envelopes, double-entry, recurring bills, joint

expenses split fairly, and savings goals that
breathe with the season. Attaches to Heorth —
same household, same auth, same MCP surface.

0.1 BETA · Q1 2027

WORKING PRINCIPLES

Patient, plain, public.

- I Tools, not platforms.**
We make small, owned, replaceable software for households — not engagement loops for strangers.
- II API-first; UI as a guest.**
Each project is a database with a kind face. Humans use the UI; agents use the same API beneath it.
- III In the open by default.**
Code on GitHub, MIT-licensed. Roadmap, journal, and contact channel all public. Nothing important hides.
- IV Self-host first.**
Your home runs your home. The run-it-on-a-Pi path — Node service with PostgreSQL beside it — is always the one we test most.
- V Few, finished things.**
We'd rather have three finished tools than a dozen half-finished

ones. Each project earns its keep.

§ 02

The mark.

A stylised W with a small flame above it — a wright at the hearth.

Drawn on a 32-unit grid; round caps and joins.

CONSTRUCTION

Drawn on a 32-unit square. The W is a single open path with round caps and joins, painted in Deep Ink. The hearth flame is a closed teardrop above the centre apex, filled at 90% opacity.

CLEAR SPACE

Always leave a margin equal to four grid units ($\approx \square$ of the mark's full width) on every side. Never let the flame touch a surrounding edge or another logo.

MINIMUM SIZE

Digital: 16 px square. Print: 8 mm square. Below this size the flame closes up; if the mark must go smaller, use the wordmark alone.

APPROVED MARK VARIANTS

INK ON PARCHMENT

PARCHMENT ON INK

EMBER (COVER ONLY)

INK ON LINEN

COLOUR RULES

§ 03

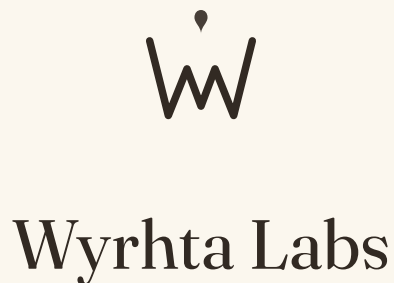

Wordmark & lockup.

Three approved compositions: horizontal, vertical, and reversed. The wordmark is set in Fraunces, with “Labs” trailing in a lighter weight.

01 · HORIZONTAL · CANONICAL

02 · VERTICAL · CENTRED

03 · REVERSED · PARCHMENT ON INK

Do not stretch, recolour, or add a tagline beneath the lockup. Do not render the wordmark in any face other than Fraunces. Use the wordmark alone when the mark would render below 16 px / 8 mm.

§ 04

Colour.

Parchment-and-ember: warm neutrals with a single saturated accent.

Five colours total — three neutrals, one accent, one ink.

Parchment	Deep Ink	Ember	Linen	Warm Taupe
-- BACKGROUND #F4EEE2 OKLCH 0.962 0.012 80	-- FOREGROUND #322A23 OKLCH 0.21 0.012 60	-- PRIMARY #B5572C OKLCH 0.555 0.135 30	-- SECONDARY #E6DECE OKLCH 0.93 0.012 80	-- MUTED-FOREGROUND #7C6F5F OKLCH 0.5 0.018 65
Page background	Body type & marks	Accent · ≤ 10% of layout	Cards & soft fills	Muted copy & meta

USAGE RULES

Ember is the only saturated colour.

Use Ember (#B5572C) sparingly — for the §-numbered eyebrows, primary CTAs, and a single accent per page. If a layout needs two oranges, the layout needs editing.

Linen for cards.

Linen (#E6DECE) softly distinguishes a card or sidebar from the parchment field — never as a primary fill.

Type lives on parchment or ink.

Body copy is always Deep Ink on Parchment, or Parchment on Deep Ink. Ember is reserved for short labels, not running text under 14 pt.

Taupe carries the meta.

Warm Taupe (#7C6F5F) sets eyebrows, captions, dates, and timestamps; never section headlines or running serif text.

§ 05

Typography.

Two faces, one voice. Fraunces carries everything readable; Geist Mono carries everything with a measurement attached.

DISPLAY & BODY · SERIF

Aa

Fraunces — by UrWercas Type

WGHT 100 → 900 · OSS · USED FOR
LABELS, METADATA, CODE

TYPE SCALE (FRAUNCES)

The hearth, the kin, the

H1 / HERO · 56PT · 300

The hearth, the kin, the wright.

H2 / SECTION · 36PT · 400

The hearth, the kin, the wright.

H3 / SUBHEAD · 24PT · 700

The hearth, the kin, the wright.

LEDE / ITALIC · 14PT · 400i

The hearth, the kin, the wright.

BODY · 10.5PT · 400

The hearth, the kin, the wright.

CAPTION · 8.5PT · 400i

Use Geist Mono only for the §-numbered eyebrow, the meta strip, dates, code identifiers, and anything with a unit attached. Never set body copy in Geist Mono. Never set Fraunces in all caps; if you need shouting, use a mono eyebrow instead.

§ 06

Layout principles.

§-numbered sections, mono eyebrows, generous rules, and a quiet 12-column grid that almost never asserts itself.

§ 04 - SAMPLE SECTION

A patient plan, written in pencil.

We are six weeks from the first public beta. Three projects, one cadence, written down so it can be argued with.

The roadmap below is deliberately small. One quarter, one release, per project — paired so the pieces grow together. Heorth is the household; KithLedger is the address book of kin and friendships beneath it; Feoh is the household's books, attaching to Heorth two quarters later.

Q3 2026 · 0.1 BETA · MIT

- MONO EYEBROW · 8pt · Ember · §-NUMBERED
- DISPLAY HEADLINE · Fraunces72pt-Light
- LEDE · Fraunces9pt-Italic · taupe
- BODY · Fraunces9pt-Regular · ink
- META STRIP · Geist Mono · 8pt · taupe

SPATIAL RULES

- 12-column grid; max content rail 1240 px / 200 mm.
- Eyebrow ▯ headline ▯ lede ▯ body, in that vertical order.
- Rules separate § sections; never decorate.
- Mono and serif never share a baseline; offset the mono by 1–2 pt up.
- Cards: Linen fill, hairline tan border, 6 pt corner radius.
- Never centre running body copy.

§ 07

Imagery & UI style.

We ship typography, hand-set UI mockups, and the occasional Old English diagram. We do not ship gradient blobs.

§ 01 · HOMESTEAD & FAMILY

Heorth

Meal plans, chores, calendars, pantry, garden, and a shared family journal — for the wall-mounted screen, the kitchen phone, and the lenter after the children are asleep.

0.1 BETA · Q3 2026

§ 02 · RELATIONSHIPS, API

KithLedger

A small, self-hostable ledger for the people you care about: birthdays, last touchpoints, the shape of a friendship over years. Used inside Heorth and consumed by third-party clients.

0.1 BETA · Q3 2026

§ 03 · HOUSEHOLD FINANCE · MODUL

Feoh

Envelopes, double-entry, recurring bills, joint expenses split fairly, and savings goals that breathe with the season. Attaches to Heorth — same household same auth same M0T surface.

0.1 BETA · Q1 2027

DO

- Set typography first; let it carry the page.
- Use mocked-up UI fragments — the actual product, screenshotted simply.
- Use Old English etymology diagrams when relevant.
- Photograph kitchens, gardens, and notebooks if photographed at all.

DON'T

- × Decorate with abstract shapes — gradient circles, blurred squares, blobs.
- × Use stock photography of generic “families” or “teams”.
- × Place the mark over photography or busy patterns.
- × Use emoji, sparkles, or illustration as filler.

§ 08

Voice & tone.

Plain, slow, unsentimental. The work speaks before we do; when we do speak, we speak in concrete things.

REGISTER

WE WRITE LIKE THIS	NOT LIKE THIS
Concrete	<i>Abstract</i>
Plain	<i>Elaborate</i>
Slow	<i>Hurried</i>
Specific	<i>Generic</i>
Quiet	<i>Loud</i>

BEFORE · AFTER

BEFORE

Wyrhta Labs is a forward-thinking innovator empowering modern families with AI-driven, end-to-end solutions for next-generation home management.

AFTER

Wyrhta Labs is a personal open-source project from Castrop-Rauxel, building tools for households rather than enterprises: Heorth, KithLedger, and Feoh.

If a sentence could be on the back of a kettle, it is probably right. If it could be on a billboard for crypto, it is probably wrong.

§ 09

Naming & etymology.

Names borrowed from Old English, code written in modern stacks.

Each project name is a real word, with a real definition.

wyrhta

/ˈwɪr.xtə/ N. OLD ENGLISH

A maker, a wright. The hand on the tool, the person who shapes.

THE STUDIO NAME

heorth

/ˈhe.ɔrθ/ N. OLD ENGLISH

Hearth — the warm centre of a home, the place where the family gathers.

PROJECT · HOMESTEAD OS

kith

/kɪθ/ N. MIDDLE ENGLISH

One's friends, neighbours, and acquaintances; the people one knows.

PROJECT · RELATIONSHIPS LEDGER

feoh

/ˈfe.oh/ N. OLD ENGLISH

Cattle, wealth, property — the household's movable goods. The first rune of the Anglo-Saxon futhorc (𐌺); root of modern English fee.

PROJECT · FINANCE MODULE

§ 10

Application.

Three small assemblies of the system: an article header, a project card, and a footer. Each uses only what § 01–09 declares.

§ JOURNAL · LETTER NO. 04

A small ledger, through five Christmases.

On reading every entry of the family's Heorth journal, in order, on a winter afternoon — and what five years of small notes look like when read as a single book.

JANUARY 6, 2026 · 1,200 WORDS · BY THE WYRIGHT

§ 01 — HEORTH

A homestead and family management system.

Meal plans, chores, calendars, pantry, garden, and a shared family journal — for the wall-mounted screen, the kitchen phone, and the laptop after the children are asleep.
